### **DETAILED ACTION**

1. Claims 1-8 examined.
2. It is hereby acknowledged that the following papers have been received and placed of record in the file: Information Disclosure Statement (IDS) on 03/05/2001.

### ***Allowable Subject Matter***

3. Claim 1-8 allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: a second proxy server without the administrative module of the first proxy server in the environment of filtering internet usage via friendly and unfriendly lists has not been found in the prior art of record in combination with the remaining limitations of the independent claims. The cited reference Bradshaw et al., U.S. Patent Number 5,835,722, discloses a full system for filtering objectionable content. The cited reference Epstein et al., U.S. Patent Number 6,584,508, utilizes two proxies in conjunction with a filter, but the two proxies exist within a single system and thus do not "have a network communication link between them" as limited by applicant's independent claim. Additionally, the two proxies do not differ with respect to the administrative module as applicant has claimed. The IDS reference Wesinger, Jr. et al. 5,898,830, utilizes multiple firewalls between a client and the Internet, but these firewalls do not differ with respect to the administrative module as applicant has claimed.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
